Welcome To Carolina Custom Booth

At Carolina Custom Booth we specialize in customization and alterations to meet and exceed our customer's expectations. Our production facility, located in High Point, NC ("The Furniture Capital of the World") is set up for no job too small and no job too large. We know our customers have choices and that's why our staff is adamant to produce a product that we can be PROUD to put our name on and be assured through our QUALITY work, our customer will be equally PROUD to know it's CCB's name being delivered.

Founded in 2004 and based in High Point, NC "The Furniture Capital of the World", Carolina Custom Booth Co. is proud to serve the US with our high quality manufacturing of booth type seating and various custom hospitality requests. CCB's expert knowledge has been handed down through our generational backgrounds of skilled furniture making right here in the heart of "Furniture Country". We specialize in customization and alterations to meet and exceed our customer's expectations.

CCB is very aware that our customers have choices in their purchasing decisions. We know in this economic time, customers have to look at the bottom line, which shouldn't have to equate to inferior product. Instead of compromising our quality to be more cost effective, we have chosen to lean our operations to be more cost effective. Our staff has dedicated 7 days a week to thinking of and implementing better, different, and new systems to make us more efficient. It all starts with organization. Our 50,000 sq. ft. facility has been molded into a very clean, well organized work environment that allows fast, high quality production. We take pride in offering our customers design concept through completion on all projects large or small. We take care of our customers every step of the way.

Our goal is not only to earn a first project with you, but to earn all of your projects. We pride ourselves in producing a high quality product at a competitive price that will be delivered in a timely fashion to the end user. Our staff is adamant to produce a product that we can be PROUD to put our name on and be assured through our QUALITY work, our customer will be equally PROUD to know its CCB's name being delivered. After all, if the end user is happy, our Design/Dealer customers should be smiling.

Custom Delivery by CCB

At CCB we take so much PRIDE in the manufacturing process it just seems like a shame to let someone else finish the job. So, we made a decision 10 years ago....Who better to deliver our product than us? So far, not only has it worked, but it has been a large key to our success. We have our own trucks and our own employed installers that do nothing but hand deliver our product on a daily basis. These guys are trained professionals at what they do. They do an additional check as the project is loaded for travel and a triple check when project is in place at final destination. They not only can move the very bulky product without destroying it, but a lot of times make minor adjustments on site for details that were unforeseen in the beginning of order process with the customer.

CCB's Delivery Advantages

- Flexibility of Schedule
- Day or night delivery options (some quick remodels require the job to be done overnight to keep the doors open the next morning without interruption)
- Weekend delivery if needed for a nominal charge
- Removal & Disposal of old Booths if needed for a nominal charge
- Last minute checks & adjustments in the field
- On time deliveries

 Saving the environment by pad wrapping our loads versus using wasteful packaging products

- 98 percent damage free simply because we know what we're doing and take PRIDE in our product
