OSB OPTIONS

NEW

Think you might need a contractor on site to build a wall?
Here's an alternate solution...
Order your seating with a Finished Wood OSB (Outside Back).

Select one of these styles from CCB or customize to suit your project. A wood OSB also gives you the option to move and shift seating at a later date and not be limited by walls fixed in place.

Upholstery Materials

(Fabric, Leather, & Vinyl)

Upholstery materials can be supplied by CCB based on your specifications or your order can be processed as COM (customer's own materials) or COL (customer's own leather) and shipped to CCB for use during the manufacturing process.

CCB can purchase from most major upholstery manufacturers.

Need assistance with upholstery selections? See CCB's website for "Finish Options" - Fabric & Vinyl Upholstery.

Barstools

NEW

A new seating category for CCB!
Our backless "MADE IN THE USA" barstools are 30" H and can be upholstered and stained to match or complement our seating and table products.

Table & Base Assembly

NO ASSEMBLY REQUIRED……
When you select "CCB's Inside Delivery" plus Optional "Assembly of Tables & Bases"

Did you know CCB offers a range of delivery options?

CCB has our own delivery staff of trained professionals employed by CCB with knowledge and experience on how to properly handle our products. Our standard "Inside Delivery" includes setting product in place, connecting banquette sections if applicable, and making some minor field adjustments when required.

But did you know that you can opt to have CCB assemble your CCB tables and bases? Ask us to include a quote for this additional "Inside Delivery" service.

Just one more way CCB can assist you and your customer with completing your project.

"CCB does not install, secure, anchor, or attach any item to a floor, wall, or platform. It is entirely the responsibility of the customer to install. (CCB recommends your GC provide attachment / installation.)

WOOD TOP & METAL BASE

Com-mu-ni-ty, n. **1.** A social unit. An assembled group of people with a feeling of fellowship with others, as a result of sharing a common interest, attitude, or goal.

Com-mu-ni-ty Ta-ble, n. **1.** Seating for large groups or the opportunity to interact with others. **2.** A collaboration area. **3.** Allows one to maximize seating in a space.

WOOD TOP,
APRON, & TAPERED LEGS

WOOD TOP & TRESTLE BASE

NEW

175 - OBARN
"Olde Barn" Series
1.75" Random Plank Solid Poplar Wood Top

Table tops constructed out of random width and varying thicknesses of solid Poplar wood planks including natural saw and planer markings to result in slightly uneven surfaces to create the illusion of product produced out of "re-claimed" materials such as aged wood pallets or rough barn siding. (Standard in "Olde Barn" distressing. Recommended in CCB's "Vintage" stain as shown**)

125 - RPCA
"Charred Ash" Series
1.25" Random Plank Solid Ash Wood Top

Table tops constructed out of random width solid Ash wood planks that a flame and heat source are applied to which creates a darkening and burnishing effect that emphasizes the graining of the wood. (Only available in CCB's "Natural" stain finish as shown**)

175 - FARM
"Farmhouse" Series
1.75" Random Plank Solid Multi-Species Wood Top

Wood Species: Ash, Maple, Poplar, Cherry (Shown in CCB's "Vintage" stain with "Farmhouse" distressing standard**)

125 - RPA

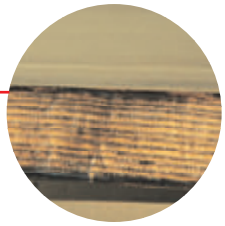
175 - RPA
1.75" Random Plank Solid Ash Wood Top

150 - BBA
1.5" Butcher Block Solid Ash Wood Top

** NOTES:
Custom to Match Stains not available.
Vast Shades of Color Variation will occur.

Table Tops

NEW



175 - RPALE
"Engineered Live Edge" Series
1.75" Random Plank Solid Ash
Wood Top

Table tops constructed out of random width solid Ash wood planks that have been engineered to have the look of tree sections cut at a saw mill. The organic shaped edges along the 2 sides of each table top are individually hand crafted and shaped to have the appearance of trees with the bark removed. This process involves charring, beveling, grinding and light chiseling of the edges.

Each table top will be unique and will have a range of variations due to the individual characteristics of the wood as well as the individual CCB craftsperson engineering the top. (Shown standard in CCB's "Natural" stain.)

TOP COATS (for seating)

Standard - A High Solids Pre-Catalyzed Lacquer with high performance qualities

TOP COATS (for table tops)

NEW

Standard -

2K Acrylic Polyurethane (The Latest Advancement in High-Performance Wood Finishes) offers unique advantages for applications that require a HARD, DURABLE FINISH:

NEW

- Superior scratch / mar, chemical and moisture resistance
- Non-yellowing, acrylic polyurethane technology
- High Solids that aid in coating edge retention
- And GREENGUARD CERTIFIED for indoor air quality

GREENGUARD Indoor Air Quality Certified

Premium -

2K Acrylic Polyurethane Plus + Polyester Sealer for a Build Up / Depth to give a "Poured Look" in a Glossy Buffed Finish which also contains very durable properties. This type of Sealer is known to be used by most major yacht manufacturers for boat interiors.

DISTRESSING

CCB's Standard Distressing

Medium level of techniques including denting, worming, and light edge rasping to create a weathered look

CCB's standard Ash wood shown in CCB's "Vintage" Stain color w/ standard distressing.

CCB's "Farmhouse" Distressing

Heavy level of techniques including more exaggerated denting, rasping to top surfaces & edges, distressing, chiseling & pitting of surfaces to represent an aged or reclaimed wood look

CCB's "Farmhouse" Random Plank Solid Multi-Species Wood Table Top shown in CCB's "Vintage" Stain color w/ "Farmhouse" distressing

CCB's "Olde Barn" Distressing

Heavy level of techniques to create a weathered and aged look including natural saw & planer markings to result in slightly uneven surfaces to create the illusion of product produced out of "reclaimed" materials such as wood pallets or rough barn siding.

CCB's "Olde Barn" Random Plank Solid Poplar Wood Table Top shown in CCB's "Vintage" Stain color w/ "Olde Barn" distressing

ENVIRONMENTALLY FRIENDLY

TERMS & CONDITIONS

Terms

* All items are priced F.O.B. High Point, NC.

* Net 30 Days (established accounts only).

* A 50% deposit of invoice amount is required on all unestablished accounts with balance due prior to shipment of order.

* Orders received without deposits will be held and then entered into production once deposit is received.

* No orders will be shipped to any account that has an outstanding balance past established terms. New orders will be shipped upon balance of outstanding account being paid in full.

* Any order being held by factory past original requested ship date will be subject to order being invoiced and expected to be paid within its terms.

* Any order being completed and held beyond 10 days of original requested ship date by customer's request will incur storage fees.

Quotes

* All quotes are based on the quantities and specifications listed on the quote. Any revisions (quantities, size, etc.,) to specifications may require a revised quote.

* It is the customer's responsibility to review quotes for product accuracy before submitting an order. (CCB will not be responsible for human error such as typos, transposed numbers, formula errors, etc. due to the "copy & paste" environment that we now live in.)

Orders

* Written confirmations must be received for all orders, either by fax or e-mail.

* A written acknowledgment of the order & shop drawings will be provided to the customer. After receipt of the acknowledgement & shop drawings, the customer is responsible for signing and advising the factory of any incorrect information concerning the "outstanding order."

*CCB is not responsible for field measurements unless prior arrangements have been made. It is the customer's responsibility to provide final dimensions for production.

*Orders cannot be released into production until all details are signed and finalized by the customer. Incomplete or missing information including but not limited to final dimensions, missing upholstery, stain specifications, etc. will delay the start of your project & change the ***"tentative"*** ship date.

*Production time typically varies from 5 - 9 weeks depending on the scope of your project as well as depth of orders proceeding it in CCB's production schedule. Contact Customer Service for current lead times.

* All ship dates provided by CCB acknowledgements or other paperwork are ***"tentative"*** only.

* ***"Tentative"*** dates are given by CCB based on the current production schedule & also based on the customer promptly returning approved paperwork (signed ack. & shop drawings).

* Any changes or delays by the customer will affect the ***"tentative"*** ship date given on the original acknowledgement.

Changes & Revisions

* Any information based on changes to orders must be communicated to CCB in writing.

* CCB may not accept revisions to the project once materials have been ordered and / or production has been started.

* Changes if accepted by CCB, may incur charges for paperwork by office administration, material costs and / or re-stocking fees as well as possible delays in the production time.

Cancellations

* Any cancellation of orders must be communicated to CCB in writing.

* Orders cancelled may incur charges to include, but are not limited to time, materials, re-stocking fees, or non-refund of order deposit.

Materials

* CCB does not guarantee the availability of materials or other items listed in the price list as the manufacturer of these materials may make their products unavailable or discontinued without notice.

* All foam used by CCB shall be CAL 117-2013 unless otherwise specified. It is the responsibility of the customer to determine local codes for the project and to notify CCB if any other specifications are required.

COM (Customer's Own Materials)

* All COM materials must meet CAL 117-2013 guidelines. (A spec sheet is required to accompany all COM shipped to CCB prior to the use of COM materials on product.)

* CCB cannot take any responsibility whatsoever for materials provided by the customer.

* All COM upholstery materials supplied by the customer are to be shipped to the CCB shipping address below.

Carolina Custom Booth Co.
Side mark: _____
901 W Market Center Drive
High Point, NC 27260

* All COM materials are to be clearly side marked with the project name or PO# and tagged with the material & pattern name as included on the order paperwork.

* CCB will not be responsible for the identification of unmarked or mis-labeled COM materials or for delays to the order resulting from this information not being properly provided by the customer and / or the upholstery vendor.

* A swatch of each COM material should be submitted to CCB with clear identification as well as notes on pattern direction or placement. If information is not provided, then it will be the sole discretion of CCB on how to apply the upholstery.

Shipments

* All items are shipped F.O.B. High Point, NC

* Most orders are shipped on our fleet of trucks which has proven to minimize damages typically experienced with regular common carrier deliveries.

* CCB's trucks transport product (w/ a pad wrapped technique) to eliminate packaging waste for the environment.

Shipments - continued

* Orders delivered by regular common carrier will be shrink wrapped, palletized, and corner protected. Oversized pieces may be subject to additional up-charges for packaging and material costs.

* Single, Double and 1/2 circle booths are shipped fully assembled ready to be set in place at the project site. Sections of 3/4 booths, Wall Benches and Special Shapes require fastening together once on site.

* Freight or delivery amounts to be quoted at the time of order.

* Shipment delays by the customer can incur storage fees.

Delivery

* The customer **must** contact CCB's Customer Service Representative (888-880-3127 or customerservice@ccbindustriesusa.com) **1 week prior** to schedule an exact ship date.

CCB's optional CCB "Inside" Delivery

* With customer's instruction CCB drivers will move product from truck to desired location assuming location is clear and accessible.

* CCB does not install, secure, anchor, or attach any item to a floor, wall, or platform. It is entirely the responsibility of the customer or end user to install. **(CCB recommends your GC provide attachment / installation.)**

Wood Tops
Final destination Must be a Controlled Environment (temp., relative humidity) before & after shipment of wood tops.

(An uncontrolled environment can allow extreme summer humidity to enter the building increasing moisture content in the air resulting in swelling (cupping / warping) of the top. Extreme dry winter air works opposite by lowering the moisture content in the air resulting in shrinkage (splitting and warpage). (Wood is a natural product that constantly moves and acclimates with the moisture content of the air within its environment.)

Claims & Returns

Common Carrier Delivery

* Damages and / or defects must be noted at time of receival, then reported to the factory no later than 48 hours after shipment is received.

CCB's optional CCB "Inside" Delivery

* Damages and / or defects must be refused and returned on CCB's truck. The factory will make necessary repairs and then re-deliver.

* Product not returned on CCB's truck will be customer's responsibility to ship to CCB factory as stated in CCB's Warranty if repair is necessary.

* Product returned to be modified from original approved shop drawings will result in additional charges to the customer as well as a re-delivery charge.

Charges for unauthorized repairs or alterations (without the written approval by the factory) becomes the responsibility of the customer.
