### PREMIUM

CCB VINTAGE

#### Custom To Match:

For a nominal charge CCB can match your submitted sample.

*All color samples shown are for general reference only. Please contact customer service to receive actual stain samples.*

## TOP COATS (for seating)

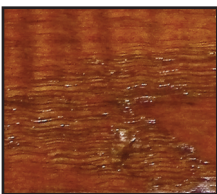

**Standard -** A High Solids Pre-Catalyzed Lacquer with high performance qualities

## TOP COATS (for table tops)

**Standard -** A High Solids Catalyzed Conversion Varnish, a non-yellowing formula in a satin finish with durability against moisture, heat, and most household chemicals

**Premium -** Polyester Sealer with a "Poured Look" in a gloss finish which has durable properties  
This type Sealer is known to be used by most major yacht manufacturers for the boat interiors

## OPTIONS

**CCB's Standard Distressing -** Medium level of techniques including denting, worming, and light edge rasping to create a weathered look

**CCB's Heavy Distressing -** Heavy level of techniques including more exaggerated denting, rasping to top surfaces & edges, distressing, chiseling & pitting of surfaces to represent an aged or reclaimed wood look

*Heavy distressing shown on the Multi-Species "Farmhouse" Top and finished in CCB Vintage stain color.*
